

Ideation Phase — Define the Problem Statements

Date	8 July 2026
Team ID	SmartBridge Externship
Project Name	FinRelief AI
Maximum Marks	2 Marks

Customer Problem Statement Template

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A borrower who has fallen behind on loan or credit card repayments	Reach a settlement with my lender that I can actually afford	I don't know what a realistic settlement percentage looks like	Lenders rarely explain how settlement figures are calculated, so borrowers have no way to check if an offer is fair	Overwhelmed and unsure whether I'm being treated fairly
PS-2	The same borrower, once I know a realistic settlement figure	Put that figure into a formal written request to my lender	I don't know how to write a negotiation letter with the right tone and structure	Most people have never had to write a formal financial negotiation letter before	Anxious about approaching the bank without sounding unprepared

Notes

FinRelief AI is designed to remove both of these barriers in sequence: it first turns the borrower's raw financial numbers (loan amount, EMI, overdue days, monthly income) into a defensible settlement percentage and debt stress reading, then turns that calculation into a professionally worded negotiation letter addressed to the specific lender, using Google Gemini with an automatic fallback template if the AI call is unavailable.
